BENEFITS OF ELGS

We have small class sizes which means your child can get more one on one attention in the classroom. The children also get to know the staff throughout the building because of our family-like environment.

CHILDREN FIRST

The curriculum is driven by developmentally appropriate learning experiences through direct instruction, hands-on activities, use of technology with tablets, interactive board activities and games, and child-initiated play. We put a strong emphasis on development of social, emotional, self-care, and communication skills. The students also have the opportunity to grow in art, music, and physical education.

FAMILY AND COMMUNITY OUTREACH

Our family outreach component encourages families and teachers working together to promote educational success.

Family Outreach Components include:

- Home Visits
- Sneak Peak of the classroom
- Volunteering in the classroom
- Parent/Teacher/Student Conferences
- Family Literacy Nights
- Early Evening Readers
- JK Family Fun Activities

In addition, our JK program has “community outreach” component where the children go to Cedar Bay Assisted Living Residence. They do activities with the residents such as finger plays, reading, and exercises. It’s a perfect example of “never being too old to learn nor too young to teach”
