# COVID-19 Testing - UPDATED

- The Elkhart Lake-Glenbeulah School District is participating with Plymouth School District to offer free COVID testing made available by the WI Department of Health Services through the "COVID Clinic" service.
- Now that we are offering free testing, we will allow for testing to reduce quarantine times for close contacts, but the results must come from an "approved" test site such as this. While home tests can be useful, those results will not be acceptable to reduce quarantine times.

Who is eligible?

- Testing is available for all staff, students, families and community members ages 2 and up.
- Individuals can test if they have symptoms or possible exposure, before or after travel or large events, or on a regular basis as often as desired. Testing may also help verify home test results
- Testing is voluntary. ALL students must be accompanied by an adult and have a signed consent form.

How do I get tested?

- Pre-register for testing at register.covidconnect.wi.gov. (If you do not have an email address, use FIRSTNAME.LASTNAME@noemail.com and the school testing staff will contact you with test results by phone.) Pre-registration is preferred, but you also can register at the site if necessary.

TIP: At the end of registration, you will be asked for your location. Select "I'm being tested at a non-public site."

- The test site will be open 7am to 4pm weekdays (except holidays) on the grounds of Plymouth High School, 125 S. Highland Ave. Pre-registration is preferred, but you also can register at the site if necessary.
- Park in the designated spots in the lot in front of the school and go to the tent south of the auditorium doors.
- Please do not park in the driving lane, and please do not enter the school.

What is involved in testing?

- We only take a nasal swab (NOT a nasopharyngeal, or deeper swab) at this site, a much easier and painless method.
- Participants will get both a rapid antigen test and a PCR test.

How do I get the results?

- Test results are typically available in 3-5 days, though some results may be available as fast as 15-30 minutes.
- You will be notified by text message when your results are available. You can access the results via a secure link in an email sent to the address on file. (If you do not have email, testing staff will contact you by phone.)
